- Documentation and Operations: technical documentation, data validation, process compliance, issue tracking, service quality
- Professional Skills: problem-solving, analytical thinking, customer service, teamwork, bilingual communication in English and Spanish

WORK EXPERIENCE

Fullstack Technical Support | Galileo Financial Technologies | *September 2024 - Present*

- Log, analyze and follow up on user incidents and technical requests through ticketing systems.
- Diagnose and resolve issues remotely, escalating incidents when required according to support procedures and SLA priorities.
- Document technical procedures, troubleshooting steps and solutions to improve support quality and knowledge sharing.
- Collaborate with internal teams to identify service issues, gather evidence and support incident resolution.

Data Entry Supervisor | PLS Logistics | *February 2024 - August 2024*

- Supervised data entry activities, ensuring accuracy, completeness and consistency across internal systems.
- Reviewed, corrected and validated information against source documents, reducing errors and improving data quality.
- Maintained accurate records of data entry operations, detected inconsistencies and followed company security procedures.
- Handled sensitive information with confidentiality, professionalism and attention to detail.

Customer Success Concierge | Suricata LA | *September 2022 - March 2023*

- Provided first-line support to external users, assisting with inquiries and resolving issues remotely.
- Supported the operation, maintenance and improvement of an omnichannel customer service platform.
- Documented cases, collaborated with internal teams and contributed to a better customer support experience.
